BPC-157

Body Protection Compound-157 | Regenerative Peptide Therapy

First derived from gastric juices — a peptide with remarkable protective and regenerative capabilities.

What Is BPC-157?

BPC-157 (Body Protection Compound-157) is a peptide first derived from gastric juices.

BPC-157 is most often used to treat stomach and intestinal conditions such as inflamed intestinal epithelium (leaky gut), eosinophilic esophagitis, and inflammatory bowel disease; however, its abilities to improve type 1 collagen and increase blood flow via angiogenesis means it can be a powerful peptide for wound healing and overall tissue regeneration following injuries.

Common Uses

- Leaky gut & inflamed intestinal epithelium
- Eosinophilic esophagitis
- Inflammatory bowel disease
- Wound healing & tissue regeneration following injuries
- Type 1 collagen support & increased blood flow via angiogenesis

Key Benefits

- Helps Heal Tissues
- Neuroprotective
- Gastroprotective
- Promotes Wound Healing
- Speeds Up Tissue Regeneration
- Reduces Inflammation
- Increases Blood Flow (stimulates NO / nitric oxide)
- Relieves Joint Pain
- Boosts Immune Function
- Improves Muscle Strength and Endurance

Dosing & Pricing

Concentration	Dosing Instructions	Indication	Investment	Supply
4mg/mL (5mL MDV)	Inject 15 Units SubQ at site of injury twice daily	*Acute Injury*	**$350**	17 days
2mg/mL	20 Units SubQ daily	*Maintenance*	**$255**	25 days

At Larrea Naturopathic Medicine, we prescribe peptides exclusively through **CLIA-certified, FDA-registered 503A compounding pharmacies.**

Every batch undergoes independent third-party testing for purity, potency, and safety. Our pharmacies are LegitScript-certified and held to rigorous regulatory standards.
