WHAT TO EXPECT

During your infusion, you'll relax comfortably while your body receives the nutrients it needs. Sessions can range from 30 minutes to several hours depending on your infusion type, so we encourage you to bring water and a snack to keep you comfortable and nourished throughout your visit. Settle into one of our reclining seats and make this healing time your own, whether that's enjoying a nap, meditation, a good book, or a favorite movie (earbuds recommended). This time is yours.
